

# Work Stress

The UK National Work Stress Network

## SPONSORSHIP FORM

**We need your help to continue our campaign!  
Support the UK National Work-Stress Network!**

We are a major campaigning organisation recognised throughout the UK for its endeavours to identify, highlight and reduce the causes of WorkStress. Our annual national conference is attended by up to 100 Health & Safety Reps and we can provide workshops, seminars and speakers on the different aspects of WorkStress for Trade Union branches and other organisations.

The Stress Network is run by a steering group of volunteers primarily from the Trade Union movement. We receive no statutory funding so are dependant on sponsorship from trade union movement to continue our work, develop our resources, and organise our popular Annual Conference every November.

We produce an essential handbook, many handouts and other guidance for H&S reps to aid their work in supporting members and holding employers to account. We have a well established website that contains many useful downloads and links. We will attend union conferences to distribute our free resources and also run seminars and give presentations.

If you would like to support the network please fill in the form below and return to our treasurer. In return for every £100 of support we will offer your organisation or union branch a discount of 10% on a delegate fee for our national conference and on our charges for seminars, workshops and speakers requests, plus an introductory pack of our handbook and resources.  
Thank you!
